Kære alle

Gmail - Now solve your problems internally before I have to go to the state for accomplices, in which case they will not participate in my investigation.

Jyske Bank
Statsminister Mette Frederiksen
Statsministeret
Folketinget
Finanstilsynet og justitsministeret

og også Nationalbanken.

To avoid any misunderstandings.
Am I right or have I misunderstood something.

My cards are open, if you want to answer.
I am sharing here some of what I have sent in the past few days, as both the state and the authorities seem to be covering up Jyske Bank's punishable actions.
But I could have been wrong.

Now solve your problems internally before I have to go to the state for accomplices, in which case they will not participate in my investigation.

Now I'm asking you if I'm right or if it's misunderstood, if it's the case that I've made a mistake, please tell me so I can correct it.

If I am right, then Jyske Bank should see to it that it is corrected.

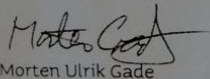

Don't you understand, I'm trying to get into Dialog., this is not going to solve anyone, it's growing into a problem.

Afslutning:

Banken finder det hensigtsmæssigt at søge at skabe en fælles konstruktiv dialog mellem parterne.

Dette tillige med henblik på at undgå eventuelle misforståelser i fremtiden og i øvrigt med henblik på i videst muligt omfang at søge at gavne den fremtidige dialog mellem banken og Dem/Storbjerg Erhverv ApS. Bankens Helsingør afdeling vil derfor i den nærmeste fremtid tillade sig at kontakte Dem med henblik på at aftale et mødetidspunkt for en nærmere drøftelse i banken.

Venlig hilsen

Morten Ulrik Gade

**When I have written as below for several years, Jyske Bank has been able to respond, which the bank has failed to do, instead you have all tried to kill me to silence.
And how did you think it went?**

I do not for a single second doubt that Jyske Bank are criminals and that the Jyske Bank group also works by creating and using the subpoenas that I have written that Jyske Bank has used against me and my company.

or

Jyske Bank can acknowledge having done some or all of the above matters.

I still believe that dialogue is preferable, that is between Jyske Bank and me, therefore I repeat that I wish Jyske Bank a solution that stops my emails and writings, so call and say you want me to stop, and then have that conversation with me .

I hereby repeat to everyone that the story is mine, and I have obtained all the materials also from the case pending in the Western High Court, the case that cannot be won since the court is infiltrated with cronyism "so cronyism and corruption are as I have written before." I refer to the previous email and what I have written.
