It is not right that the Danish State is complicit or allows Danish Banks to use bribes. I am still waiting for the Prime Minister and the Minister of Justice that you want to answer me.

8 February 2023.

This is for all Members of the Danish Parliament "Folketinget."

**The Prime Minister's Office.
The Danish Parliament and the Government
[Prins Jørgens Gård 1.](#)

Denmark.**

Prime minister Mette Frederiksen.

**The Ministry of Justice History of Justice Denmark
[Slotsholmsgade 10](#)
1216 Copenhagen.
Denmark.**

Minister of Justice Peter Hummelgaard.

Good morning

To the Prime Minister and the Minister of Justice for your response, and all the rest of you are also welcome to join, and ask questions, as I would like to present full documentation to all of you, that the Danish state cooperates and covers banks that have committed criminal offenses, and use bribery.

It is not right that the Danish State is complicit or allows Danish Banks to use bribes.

This is about legal certainty, trust in the Danish judges, human rights, and whether it is okay for the state to cover up banks that, like Jyske Bank, are demonstrably behind organized crime and the use of bribes by the Lundgrens lawyers.

I am still waiting for you to answer me, this is about legal certainty, trust in the Danish judges, human rights, and whether it is okay for the state to cover up banks that, like Jyske Bank, are demonstrably behind organized crime and the use of bribes by the Lundgrens lawyers.

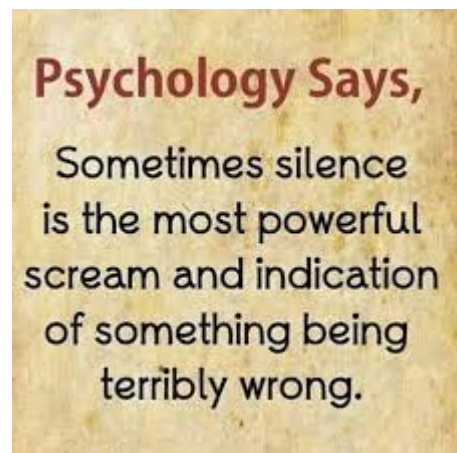

Best wishes

You can just say if this is a misunderstanding, then I'll stop writing.

And if I've been wrong, I'll will start an apologizing from now on, and until Christmas Eve.

Below is a previous email with attached documents, which are some of the 1,000 inquiries you have all chosen to ignore, I think we should talk together.

And if you don't want to talk to me, because you are more busy covering up Jyske Bank A/S and Lundgren's lawyers, will the Danish state help me but complain about the state for depriving the population there of the right to self-determination, in order to start somewhere.

From the email 7. februar 2023 kl. 14.27 - man. 23. jan. 2023 15.11.

Dear everyone in Jyske Bank's Legal and Group Management Group, and all of you who are passively reacting to the witness you have received about Jyske Bank's business methods.

Anders Dam, this is an opportunity, now talk to me, we will solve this and you will leave.

Afterwards, I'll keep my mouth shut.

Do Danish citizens have the right to know what their lawyers are doing, or do Danes have no rights after they have requested any law firm to help them.

At the same time, this is a request to the Danish State, that is to say that the Danish parliament takes responsibility for launching an investigation to see if I am right in what I have written.

You can just say yes, you're right.

Or you can say you are not right about everything, but what you write is largely true.

But reference to what the Ministry of Justice writes on their website writes, that the Bar Association is an independent complaints board that deals with complaints about lawyers.

And when the Board's decisions cannot be appealed to another administrative authority, it is important for general legal certainty that the Bar Council is not governed by cronyism, which is the same as corruption.

If there are some of you receiving this message, who disagree that cronyism is the same as corruption, then I request again as before that if one or more of you disagree that corruption and cronyism are the same, then please let me know, you can do it in this letter.

Write and sign here.

If you do not agree that corruption and cronyism are the same, simply write your name and position and then sign and scan the document here and return it in an email to me at banknyt@gmail.com mark mail with camaraderie

Write with readable text.

Your name.

your position.

Signature.

With my inquiries to the mentioned persons, and selected law firms, such as their employees and the management of these firms, I wish to contribute to investigating whether the Bar Council is governed by cronyism, i.e. corruption, I do this by asking a few individuals some questions.

At the same time, I would like to encourage everyone to respond to a similar letter, like the one I sent yesterday 22 January to Legal Director Martin Nielsen at Jyske Bank A/S, which is a little more detailed than what I am writing here.

I ask all recipients of this letter to confirm that you agree.

Then you yourself, can contribute to the investigation of criminal Danish banks and those corruptions, that are used to undermine the legal security of the Danish population.

How will you answer the questions yourself? which prominent politicians, civil servants and lawyers as well as organizations will receive, with direct reference to how Supreme Court Justice Kurt Rasmussen judges, to give Danish lawyers full power over all clients.

I have yet to receive your reply and over 10 days have passed since I asked the Danish state to confirm that such are the rules for the rights of Danish lawyers.

States with these 6 questions.

I give these 3 answer options, and therefore ask the Prime Minister Mette Frederiksen and the Minister of Justice Peter Hummelgaard to each answer with one.

I totally agree.

I completely disagree.

I do not know.

And that for every question.

When a law firm works for both the plaintiff and defendant at the same time, as long as it does not happen in the same case. Why a law firm A. that has been tasked with presenting a fraudulent and false case against the defendant B. and Subsequently at the same time, the same law firm A. may well give B. counseling in a transaction of around DKK 600,000,000. without it is being a breach of good legal practice.

AND THERE WILL BE MORE, BUT WE HAVE TO START SOMEWHERE.

These are just a few of the questions I ask, and if you all sign that this is how lawyers must work, and that none of the above are breaches of good legal practice, it will have an impact on a complaint to the European court, i.e. a pretext complains about the Danish State, to deprive the individual Dane of deciding for himself, "Disempowerment" if they choose a Danish lawyer.

I talk a little about this in the YouTube video, which is in Danish.

I want to have a meeting and talk with you, so I ask you to answer me, this is not for fun.
