Vestergade 8-16

At: Anders Christian Dam****And Juridisk.****Are we talking about conspiracy theories, as the corrupt Lundgren's lawyers at Dan Terkildsen allege, see the appendix of the complaint.****Or is it a conspiracy of lawyers, judges, the Financial Supervisory Authority and others who are working together to deprive the Danes of their right to self-determination, and who are doing this to cover up some of Denmark's largest criminal enterprises, which are collaboration partners with the Danish state. In other words, the State's economic****I hereby share a copy of what I am about to correct, per 6 February, if Jyske Bank has any corrections, or believes that something is not right, or perhaps there are misunderstandings.****Then you must contact me on +4522227713****And I will come in past the Jyske Bank branch on vesterbrogade, where you can point out what you think, according to Jyske bank's understanding, may have been misunderstood.**

**You can still take this as a joke that your employees have stated, we could also agree that enough is enough.**

**My offer to stop all writing, and advertising on cars, as well as elsewhere is still valid.  
You just have to talk to me and tell me what you want.**

**So if Jyske Bank wants me to stop hanging Jyske Bank out in public space as a bank that commits criminal law offences, and with the support of a number of authorities, which I have come to the conclusion must be a conspiracy, then I would like to keep writing this.**

**I am aware that if what I write is not true then it is a violation of then Jyske bank can come after me, but who breaks the law, me or Jyske bank.**

**Straffeloven. § 267.** Whoever makes or disseminates a statement or other message or performs an act that is likely to offend someone's honor, shall be punished for defamation by a fine or prison up to 1 year, jf. dog §§ 268 og 269.

**Jyske Bank and their accomplices could refer to the Criminal Code § 267. and § 268. but no one dares, as everyone knows that Jyske Bank commits fraud, which is supported by the Danish state, by all authorities covering up the crime they know that Jyske Bank is demonstrably behind, and which was carried out in association and therefore aggravating circumstances, which is the case with the fraud, forgery, bribery, abuse of power, exploitation, misrepresentation that Jyske Bank is behind.**

**Jyske Bank and their accomplices could refer to Section 267 and Section 268 of the Criminal Code.**

**But no one dares, as everyone knows that Jyske Bank commits fraud, which is supported by the Danish state, in that all authorities cover up the crime that the authorities at Jyske Bank are demonstrably behind, and which is carried out in association, why is it aggravating circumstances.  
Which is the case with the fraud, forgery, bribery, abuse of power, exploitation, misrepresentation that Jyske Bank A/S is behind.**

**Regardless of the fact that Jyske Bank A/S has paid Lundgren's lawyers to lose the case against Jyske Bank, Jyske Bank has also, together with Lundgren's, simultaneously worked to undermine the client's and the customer's finances and the possibility of being able to bring legal proceedings against Jyske Bank.**

**The case in the Venstre Landsret, where the corrupt Supreme Court judge from the bar association also has his way, cannot of course be won, so Jyske Bank has nothing to fear, and I don't care about that case, it is just a case that documents that legal certainty in Denmark is strong in decay.**

## **Dear everyone**

**I thought this was a small thing, but for you it is perhaps more about showing everyone else that you stand together,**

**with the state behind against those in the population who point out that Jyske Bank violates many laws and regulations in the bank's business methods.**

**And then when someone like me comes and points out that an organization does not comply with Danish law, after being caught with their fingers in the cake tin.**

**I have a story to tell about Denmark, but if it is a matter of mistakes, then we have to solve problems before people start asking questions.**

**I want to help Jyske Bank, and you know I have wanted to do something else for many years.**

**Shall we be helped to clean up together.**

**If Jyske Bank does not want a solution or to help clean things up, you will not want to say so, so that I do not have to keep calling on Jyske Bank for dialogue and conversation.**

**I would rather take pictures of nature and do other hobbies, I ask Jyske Bank to help me, and that we forget everything that happened.**

**I have a story to tell, will you help me write it.**

**I could also carefully write my books and stop all advertising if Jyske bank admits that I have written the truth.**

**Can't you see for yourself that we have to meet and then solve all this nonsense, because it's not fun.**

**You know I cannot stop you, or prevent the Danish State from participating and working to cover up corruption.**

**You also know that I am right in what I write, so you cannot stop me either.**

**Shouldn't we say that we are equal and that there are no winners and stop this story, I don't want to hang anyone out, and if it's a misunderstanding, then that's just it.**

**It's been fun for a long time, but don't you think I should be doing something other than teasing you all.**

**Hope you have had the same fun as me, but you don't know because Jyske Bank won't talk to me.**

**Now call me and make an appointment so that this stops now, as I have written many times, rather today than tomorrow.**

**Like everyone else, you could also take over the story and my rights, then I no longer decide what should be written and which names should be included.**

**Offer me DKK 1 crown, who knows.**

**I'm tired of writing, but again not so tired, and it's also funny because you've never met someone like me.**

**Will I receive the DKK 120 you have withdrawn on 30-12-2022. since my account in Jyske Bank is closed this day but statement 31-12-2023**
